MESSAGE FROM THE PRESIDENT

2

Dear Agent,

Alignment Health Plan takes pride in the products and services we design specifically to improve our members health. From quality of care to quality of life, we provide what they need, when they need it. When COVID-19 hit the United States, we immediately thought of our members and how we could provide quick and impactful support to those who needed it. As the virus developed and built momentum, we communicated with our entire membership on a regular basis, we delivered thousands of meals to members so that they could remain safely at home and we provided tens of thousands of face masks and hand sanitizers to members and continue to do so today.

It is our mission to serve the frail and most vulnerable and it's our mission to manage the health and well-being of those less vulnerable in order to keep them healthy. It is what Alignment was built on. It is our calling. It's what we do.

We are excited to share with you the plans and services we have available for 2022. And we are grateful for your continued partnership.
